TOOLS & CHEMICALS CATALOGUE

Kirk Marketing has expanded on their M•TRIM range of trims. They have included two exciting ranges to compliment the M•TRIM range in the tiling industry. They are M•CHEM and M•TOOLS. RUBI and SIGMA were included to compliment the M•Tools range.

M•TOOLS is Kirk's quality comprehensive range of flooring tools with the main focus on tiles, with a limited range of tools for laminate floors and stretch carpets. M•Tools tiling range include a comprehensive range of manual and electric tile cutters with associated spares, other electric tools, diamond blades and drill bits, spacers and a comprehensive range of hand tiling tools. The Carpet tools we stock are the most popular tools used in the carpet industry. We have included an essential range of laminate tools for the laminate floors. To complete the tool range and compliment our M•Chem range of chemicals we have a range of cleaning and sealing applicators and scouring pads to clean and seal tiled floors, laminate floors and other hard surfaces.

M•CHEM is Kirk's comprehensive range of quality floor care products including a unique and comprehensive range of cleaners for all hard surfaces such as tiles, laminate floors, screeds, wood and any other sealed hard surface. To compliment the cleaners M•Chem offer tile strippers and a range of sealants sealing most tile types with different finishes such as high gloss, semi-gloss, clear and matt finish. M•Chem also offer liquid polish for screeds, vinyls and ceramics. M•Chem has a range of applicators needed to apply the sealants and cleaners and a range of scourers and scrubbers to strip the old tiles and floors and clean the grout lines.

RUBI was established in 1951 when it manufactured its 1st tile cutter in Spain. Rubi's quality tile cutters carry a 2 year guarantee for electric cutters and 5 year guarantee for manual cutters. However the 5 year manual cutter is only valid if you become a member of the Rubi club, which is for free. The manual cutter comes with a 2 year guarantee and as soon as you register with the Rubi Club, they give you an extra 3 years, which is an effective 5 years. Kirk stock a range of Rubi professional manual tile cutters and associated scoring wheels and spares. Similarly Kirk stock Rubi professional Electric tile cutters and spares. Kirk also stock a unique range of Rubi tiling products to compliment the tile cutters.

SIGMA started in 1964 specialising in tile cutters for the professional tiler. Sigma products are specifically designed to satisfy the changing needs of the professional tiler. Sigma give a 5 year guarantee on their manual tile cutters. Kirk carry a range of professional manual tile cutters, scoring wheels and spares. Kirk have included a Sigma mosaic kit and associated manual tile cutter.

M•SEAL Kirk have had continuous requests for door insulators and under the brand of M•Seal they have established a small range of door insulators covering a comprehensive range of requirements. M•Seal has its Automatic range as well as its basic door brushes and door seals in aluminium and PVC. Please follow instructions when you fit the door insulators to get the best use out of the M•Seal door insulator.

MTETS.1400 Diameter 115mm 1400W Infinite 30mm The electric tile saw can be tilted to do mitre cuts.

FUNCTION

A powerful electric adhesive mixer for the bigger contractor. The MTEM.1400 can mix between 40-50kg of adhesive or grout at a time. Spare parts are available.

CODE MTEM.1400

FRRORS AND OMISSIONS EXCEPTED

۲

M•TOOLS DIAMOND BLADES

600MM ADHESIVE MIXER

CODE FUNCTION

۲

MTAMIX.600 Used in conjunction with Electric Adhesive Mixer (MTEM.1400). Has a threaded end that fits into the electric adhesive mixer.

115MM SET OF DIAMOND BLADES FOR THE HANDYMAN

CODE FUNCTION

MTDB115DIYKIT A set of DIY blades: continuous, segmented and turbo blades for the handyman. This set gives the handyman a blade for all possible uses.

۲

115/230MM SEGMENTED DIAMOND BLADES

CODE	MTDB115/230.S
FUNCTION	A range of segmented blades designed to cut
	concrete and masonry products. Segments
	remove debris and keep the cut line clean to avoid
	overheating and blade damage. Blades can be used
	wet and dry. Used by DIY and contractors.

115/230MM CONTINUOUS DIAMOND BLADES

CODE	MTDB115/230.C
FUNCTION	Continuous blades are designed to cut various types
	of tiles and hard materials. Used by DIY and
	contractors. Cut wet (or dry with angle grinder "or
	electric tile saw (MTETS.1400). This blade gives clean
	cuts in wall and floor tiles, with slight chips on the tile
	edges.

115/230MM TURBO DIAMOND BLADES

CODE FUNCTION

MTDB115/230.T A Multi purpose blade that can be used for continuous and segmented jobs, although the same quality cut is not achieved. The advantage is that one blade performs both functions. Cut dry.

ERRORS AND OMISSIONS EXCEPTED

۲

QUALITY CONTINUOUS DIAMOND BLADES

CODE	MTDB200.QC, MTDB230.QC, MTDB250.QC and MTDB300.QC
SIZE FUNCTION	Diameter 200mm, 230mm, 250mm and 300mm Quality Continuous diamond blades for electric water cutters, these blades can be used with the M•Tools electric cutters and the Rubi electric cutters. Cutting lifespan expected to be longer than the DIY products.

PAGE 8

NOTE

Drill bits MTDBit.6 and MTTGB.6 must be used with water to keep the cutting edge cool. This prolongs the working life of the tool.

6MM DIAMOND DRILL BIT

CODE FUNCTION

۲

MTDBit.6

These bits are sold individually and are designed to cut through hard materials like porcelain, marble, granite etc. The must be used with water. Drilling through ceramic tiles will damage these bits. For ceramic tiles use the MTVDHC, or MTTGB.6.

The MTDBit.6 will drill between 10 and 20 holes if used correctly. A guide must be used to keep the bit from wandering.

6MM GLASS DRILL BITS

CODE FUNCTION MTTGB.6

Glass drill bits with hardened point for drilling holes through glass and ceramics. They must be used with water.

VARIABLE DRILL HOLE CUTTER

CODE FUNCTION

MTVDHC

An adjustable hole cutter for use with an electric drill. The arm can move and be locked to the required size. This tool is designed to cut holes through ceramic tiles only. The hole is drilled through the back of the tile. Stop drilling before reaching the glaze. The hole is tapped out from the glazed side of the tile to ensure a clean break. Good results are achieved when drilling the hole in reverse. Use a tile file or tile sander to remove sharp edges after drilling.

۲

TILE SPACERS

۲

A range of Tile Spacers used between tiles to ensure tiles are laid in straight lines. Narrower spacers are used on wall tiles or rectified porcelain, whilst thicker spacers are used for floor tiles or where a large grout gap adds to the effect of a rustic tile.

PAGE 9

CODE	DESCRIPTION	QUANTITY
MTTS.2X	2mm tile spacers	300 in a pack
MTTS.3X	3mm tile spacers	120 in a pack
MTTS.5X	5mm tile spacers	120 in a pack
MTTS.6X	6mm tile spacers	120 in a pack
MTTS.8X	8mm tile spacers	60 in a pack
MTTS.10X	10mm tile spacers	60 in a pack

TILE BREAKER

CODE FUNCTION

MTTB For free-hand scoring and breaking of thin wall tiles

MOSAIC CUTTER

CODE FUNCTION	MTMC This tool has two wheels which give it a very sharp cutting edge. Designed to cut and break glass mosaics into desired shapes. Can also be used to "nip" harder ceramic and porcelain tiles. Wheels are turned to expose a new, sharp cutting edge.
CODE FUNCTION	MTMC.2SW A set of replacement scoring wheels. 2 wheels per pack.
CODE FUNCTION	MTMC.2SWT A set of titanium coated scoring wheels. These wheels are better quality with a longer life span.

PROFESSIONAL TILE NIPPER

CODE	MTTNPRO
FUNCTION	A powerful hand tool used to nip thicker,
	stronger ceramic and porcelain tiles

CHEMTOOLS CATALOGUE PAGES 2014.indd 9

ERRORS AND OMISSIONS EXCEPTED

M•TOOLS HAND TILING TOOLS

۲

TILE NIPPER

۲

CODE	MTTN
FUNCTION	A light to medium duty tile nipper used to "nip"
TORCHOR	curves and shapes in tiles to desired finish. Use only on ceramics and thin porcelain tiles (8mm).

Before using any nipping tool make sure the desired shape has been scored into the tile surface to avoid the tile shattering.

PARROT NIPPER

CODE FUNCTION	MTTNP The Parrot Nipper has a narrow beak for more intricate work. It is also designed to increase the size
	of a whole drilled into a tile. The angled beak gives easy access to these areas.

TILE SCRIBER

CODE FUNCTION MTTS Used to score freehand on tile surface, handy for curves and shapes before nipping. Cutting edge is protected under rubber cap.

TILE SPONGE

CODE	MTSP
FUNCTION	High density foam sponge used for general cleaning and specifically for cleaning tiles after tiling is complete.

300MM ROD SAW & BLADE

CODE FUNCTION	MTRS&B.300 A frame and carbide coated blade used to cut holes out of the centre of tiles. A pilot hole is drilled, the blade inserted through this hole and re-attached to the frame. The hole is cut along the mark in a sawing motion. Use on ceramic tiles only.
CODE FUNCTION	MTRSB.300 Replacement blade for the above tool. This blade also fits a standard hack saw frame.

M•TOOLS HAND TILING TOOLS

TILE SANDER

۲

CODE	
FUNCTION	

MTTSAN Used to clean up sharp tile edges left after doing straight cuts.

RUBBER KNEE PADS

CODE FUNCTION MTRKP Most commonly used knee pad, not as soft and absorbent as the foam type, but the thinner rubber allows freedom of movement.

FOAM KNEE PADS

CODE	MTFKP
FUNCTION	Knee pads provide comfort whilst working on your knees. The thick foam is soft and very absorbent for extra comfort.

CHIPPING HAMMER

CODE FUNCTION	MTCHH A hammer used for floor or wall preparation before plastering or tiling. This hammer takes a toothed comb which helps chip away existing plaster, screed
	or concrete.

CHIPPING HAMMER COMBS

CODE	MTCHH.3C
FUNCTION	A reversible replacement comb for the
	Chipping Hammer. 3 in a pack.

FRRORS AND OMISSIONS EXCEPTED

۲

8oz, 12oz, 16oz RUBBER MALLETS (WHITE & BLACK)

CODE	MTRMW.8/12/16, MTRMB.8/12/16
FUNCTION	8oz, 12oz and 16 oz sized rubber mallets used to bed
	tiles into adhesive beds or for general work where a soft striking tool is required. Your choice of rubber
	mallet, black or white.

40KG SUCTION PAD

۲

 MTSPAD Used to lift heavy floor and wall tiles to place them
accurately into adhesive beds.

80KG DOUBLE SUCTION PAD

CODEMTDSPADFUNCTIONUsed to lift larger
place it accuratel

Used to lift larger tiles up to a weight of 80kg, and place it accurately in the adhesive bed, 600mm x 600mm tiles and larger can use the double suction pad, dependant on the weight of the tile.

CO.

2 PIECE GROUT SAW

CODEMT2GSFUNCTIONA heavy duty tool with two blades; one is serrated for
use on wall tiles, and the other is carbide coated for
use on floor tiles. This tool affords the user a wider
range of use. Spare blade sets are available.

BLADE SET FOR 2 PIECE GROUT SAW

CODE FUNCTION MT2GS.B Blade set for 2 Piece Grout Saw

۲

۲

PAGE 12

GROUT REMOVER

۲

CODE FUNCTION	MTGRR Light duty grout remover meant for removal of grout in wall tiles. Serrated teeth for increased cutting strength.
CODE	MTGR.B
FUNCTION	Replacement blade set, 3 in a pack.

5 SIDED GROUT REMOVER

CODE FUNCTION	MT5GR The pentagon shaped blade on this tool allows the blade to be rotated to expose a fresh cutting edge. Designed for the removal of grout in a larger area. Spare blades are available, 2 in a pack.
CODE	MT5GR.B
FUNCTION	5 Sided Grout Remover spare blades, 2 in a pack.

GROUT AND TILE BRUSH

CODEMTGTBFUNCTIONA hand tool used to clean dirty grout lines. Stiff
bristles aid in scrubbing. Use in conjunction with
either M•Chem Multi Purpose Cleaner or Grout and
Tile Cleaner, depending on the severity of the dirt.

GROUT SCRUBBER

CODEMTGSFUNCTIONGrout Scrubber and pole are used together to create
a tool used to clean grout lines on floor tiles.
The head and pole are sold separately.

1200MM GROUT SCRUBBER POLE

CODE FUNCTION MTGSP Used in conjunction with the grout scrubber.

FRRORS AND OMISSIONS EXCEPTED

M•TOOLS REFURNISHING TOOLS AND TROWELS

ADHESIVE MIXER (USED WITH ELECTRIC DRILL)

CODE FUNCTION

۲

MTAMIX.400 Used in conjunction with an electric drill to mix small quantities of grouts, adhesives and paint.

GROUT BAG APPLICATOR

CODE FUNCTION

MTGBAG

Grout applicator tool that applies grout accurately into gaps. Useful when grouting delicate tiles, stainless steel and mosaics where care must be taken not to scratch or damage the surface. Also reduces the amount of mess made when grouting.

۲

BUCKET TROWELS

CODE FUNCTION	MTBT.W Bucket trowel with wooden handle. Used to remove adhesive and grout from containers. Goose neck handle aids in getting larger amounts of adhesive out of the bucket.
CODE FUNCTION	MTBT.R Bucket trowel with rubber coated handle. A second option with comfortable handle.

PLASTERING TROWEL

CODE FUNCTION MTPT Straight edged trowel used to apply and smooth plaster on walls.

ERRORS AND OMISSIONS EXCEPTED

۲

M•TOOLS TROWELS & GROUTING TOOLS

NOTCHED TROWELS

۲

The notches create grooves in the adhesive which aid in adhesion and leaves the correct amount of adhesive for tiles. We offer the following range:

PAGE 15

NAME CODE FUNCTION	3mm Notched Mosaic Trowel MTMT.3 Notched trowel used for mosaics and small format tiles.
NAME CODE FUNCTION	6mm Notched Wall Trowel MTWT.6 Notched trowel used to apply and spread adhesive for wall tiles.
NAME CODE FUNCTION	10mm Notched Floor Trowel MTFT.10 Notched trowel used to apply and spread adhesive for floor tiles.

600MM SCREED TROWEL

CODE FUNCTION MTST.600 Spreads screeds for screed surfaces and spreads glue for laying vinyl in large areas.

۲

6MM & 10MM PLASTIC ADHESIVE SPREADERS

CODEMTPAS.6 / MTPAS.10FUNCTIONUsed to apply adhesive for wall and floor tiles, when
doing very small jobs, or in restrictive areas where a
trowel would be too big to be used.

RUBBER FLOAT

CODE FUNCTION MTRF A rubber bladed hand tool used to level screeds or apply grout to tile gaps. Handle and blade construction aid in comfort and strength.

ERRORS AND OMISSIONS EXCEPTED

۲

1

۲

200MM & 300MM GROUT SQUEEGEE

۲

CODE	MTSQ.200 / MTSQ.300
FUNCTION	Strong rubber bladed squeegee used to apply grout to tile gaps. Wooden handle allows for tool to be cut to a usable size. Making these squeegees cost effective and versatile.

200MM PLASTIC SQUEEGEE

CODE	MTPSQ200
FUNCTION	A hand tool used to apply grout to tile gaps. This tool has a tapered rubber blade and
	plastic handle.

6MM MULTI-PURPOSE SQUEEGEE

CODE	MTMSQ.6
FUNCTION	A multi-purpose DIY tool that performs two basic
	functions. Used to apply and spread tile adhesive
	for wall tiles with the notches and to apply grout to
	tile gaps using the spreader.

10MM MULTI-PURPOSE SQUEEGEE

CODE	MTMSQ.10
FUNCTION	A multi-purpose DIY tool that spreads adhesive for
	floor tiles with the notches and applies grout to the
	tile gaps using the spreader.

PLASTIC SPREADERS PACK

CODE FUNCTION MTPS.4 Grouting and spreading work in small areas. Available in a pack consisting of 50mm, 80mm, 100mm and 120mm wide spreaders.

ERRORS AND OMISSIONS EXCEPTED
