

COMMERCIAL FLOOR COVER TRIMS

THE **BIGGEST** AND **BEST** SELECTION OF **THRESHOLD TRIMS**

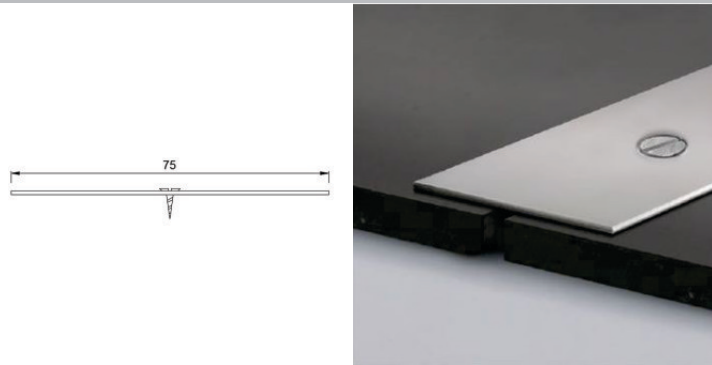

Transition Ramp Cover 304 brushed. 2.5m length

Stainless Steel Transition Ramp Covers are supplied undrilled due to differing site conditions. The 1,6mm thick covers are suitable for commercial, light industrial and domestic applications to provide a safe ramp where flooring heights differ. Drill and screw fix as required on site. The cavity can be packed with adhesive to give a solid base for trolley traffic.

Transition Cover 304 brushed. 2.5m length

Stainless Steel Transition Covers are supplied undrilled due to differing site conditions. The 1,6mm thick covers are suitable for commercial, light industrial and domestic applications to cover gaps between level flooring types. The profile covers the junction between floors and will allow for expansion where needed.
